Understand Your Health Plan Before You Get Care to Help Avoid Higher Costs

Prior authorization is an approval that is needed from your health plan before you have certain health tests or services. To help make sure your care is appropriate and avoid unexpected costs, it's important that approval is received before you get these services.

Usually, your network provider will take care of prior authorization before the service is performed. But it is always a good idea to check if your doctor has gotten the needed approval.

We want you to get the most out of your health care benefits – let us help! Call the number on your Blue Cross and Blue Shield of Texas member ID card for questions.

Your Prior Authorization Checklist

Once your health plan coverage starts, you can begin using the resources below. Be a smart health care shopper – use these tools to stay informed about your plan benefits.

Connect with us

Use the information on your BCBSTX member ID card to create a Blue Access for MembersSM account at mybenefits.county.org. Click on Benefits, then select Links & Contacts and Go to Blue Cross Blue Shield Member Site. And download the BCBSTX App at the Apple or Google Play store. Both tools can help you keep up with your benefits.

Know what your plan requires

Download your benefit booklet in BAMSM to see a more detailed list of services that require approval under your plan. Confirm with your provider that they have gotten approval before your service.

Track your status

You can check whether your prior authorizations have been submitted or approved in BAM or in the BCBSTX App.

Services That May Require Prior Authorization

We want you to be clear about what your health plan covers.

Services¹ that may need prior authorization in advance:

- Inpatient hospital stays²
- Stays in a facility for rehabilitation, long-term care or skilled nursing care
- Behavioral health care, either in or outside of a hospital
- Some high-cost specialty drugs

Some services you get without a stay at the hospital may also require prior authorization, such as:

- Air ambulance (for non-emergencies)
- Breast lift or reduction surgery
- Electrical stimulation of the brain, nerves or stomach
- Home health care
- Home infusion
- Hospice
- Some ear, nose or throat services, such as bone conduction hearing aids, cochlear implants or surgery
- Some surgeries of the face, jaw, mouth or teeth
- Some wound care services, such as high-pressure oxygen treatment

You are responsible for calling BCBSTX if you get out-of-network care. Be sure to notify BCBSTX within two days of an emergency, maternity, mental health or substance abuse hospital admission at an out-of-network facility. For prior authorization or other questions, call the number on your member ID card.

1. Prior authorization requirements vary by plan. Check your benefits booklet or call the Customer Service number on your member ID card for questions about your benefits. A prior authorization is not a guarantee of benefits or payment.

2. In-network inpatient hospitals are required to request prior authorizations on your behalf.

Take Advantage of Preventive Services

Your family's track to better health begins with a single step

Preventive check-ups and screenings can help find illnesses and medical problems early and improve the health of you and everyone in your family.

Your health plan covers screenings and services with no out-of-pocket costs like copays or coinsurance as long as you visit a doctor in your plan's provider network. This is true even if you haven't met your deductible.

Some examples of preventive care services covered by your plan include general wellness exams each year,

recommended vaccines, and screenings for things like diabetes, cancer or depression. Preventive services are provided for women, men and children of all ages.

For more details on what preventive services are covered at no cost to you, refer to the back of this flier for a listing of services, or see your benefits materials.

Learn more on immunization recommendations and schedules by visiting the Centers for Disease Control and Prevention website at www.cdc.gov/vaccines.

Where to Go for Care

What do you do if your clutch player breaks an arm in the big game? Or you slice your finger chopping veggies? Or have stomach cramps after last night's sushi date? Often the choice is clear. If you have signs of a heart attack, it's best to go to the emergency room. But what if you have a sore throat? Or lower back pain?

Knowing where to go can make a big difference in the cost of your care — especially when you use in-network providers.

Doctor

Is your blood pressure high? Are allergies making you miserable? Can't sleep? Your go-to provider is a good place to start. Some even offer telemedicine. If you need a specialist, your doctor will tell you.

We make it easy to find independently contracted, in-network providers near you:

- Log in to Blue Access for MembersSM at mybenefits.county.org. Click on **Benefits**, then select **Links & Contacts** and **Go to Blue Cross Blue Shield Member Site**
- Call Customer Service at the number on your ID card

Good for: health exams, shots, cough, sore throat

Wait time: check with office

Cost: in network \$ out of network \$\$

Retail Health Clinic

Need a flu shot? Feel queasy? Have an ear ache or rash? Many grocery stores and pharmacies have on-site medical clinics. Some may even see patients evenings, weekends and holidays.

Good for: headache, stomach ache, sinus pain

Wait time: check with clinic

Cost: in network \$ out of network \$\$

Urgent Care Center

Sprain your ankle? Have a monster migraine? Can't stop coughing? These centers offer non-emergency care when your doctor's office isn't open evenings, weekends or holidays. Some may offer online booking.

Good for: back pain, vomiting, animal bite, asthma

Wait time: often less than ER

Cost: in network \$\$ out of network \$\$\$

Hospital ER

Worried you may be having a heart attack? Did you black out after a nasty fall? Are you coughing up blood? ER doctors and staff are trained to treat serious and life-threatening health issues 24/7.

Good for: chest pain, bleeding, broken bones

Wait time: varies

Cost: \$\$\$\$

Know the Difference:

Freestanding ER vs. Urgent Care Center

Freestanding ERs look a lot like urgent care centers, but are not affiliated with a hospital. Nearly all are out of network. You could end up with a hefty bill (or several bills). You might even be sent to a hospital ER for care! Here are ways to spot a freestanding ER:

1. Look for "Emergency" on the building exterior.
2. Check the hours. If it's open 24/7, it's a freestanding ER. Urgent care centers close at night.
3. Confirm it's not connected to a hospital.
4. Ask if it follows the copay, coinsurance and deductible payment model.

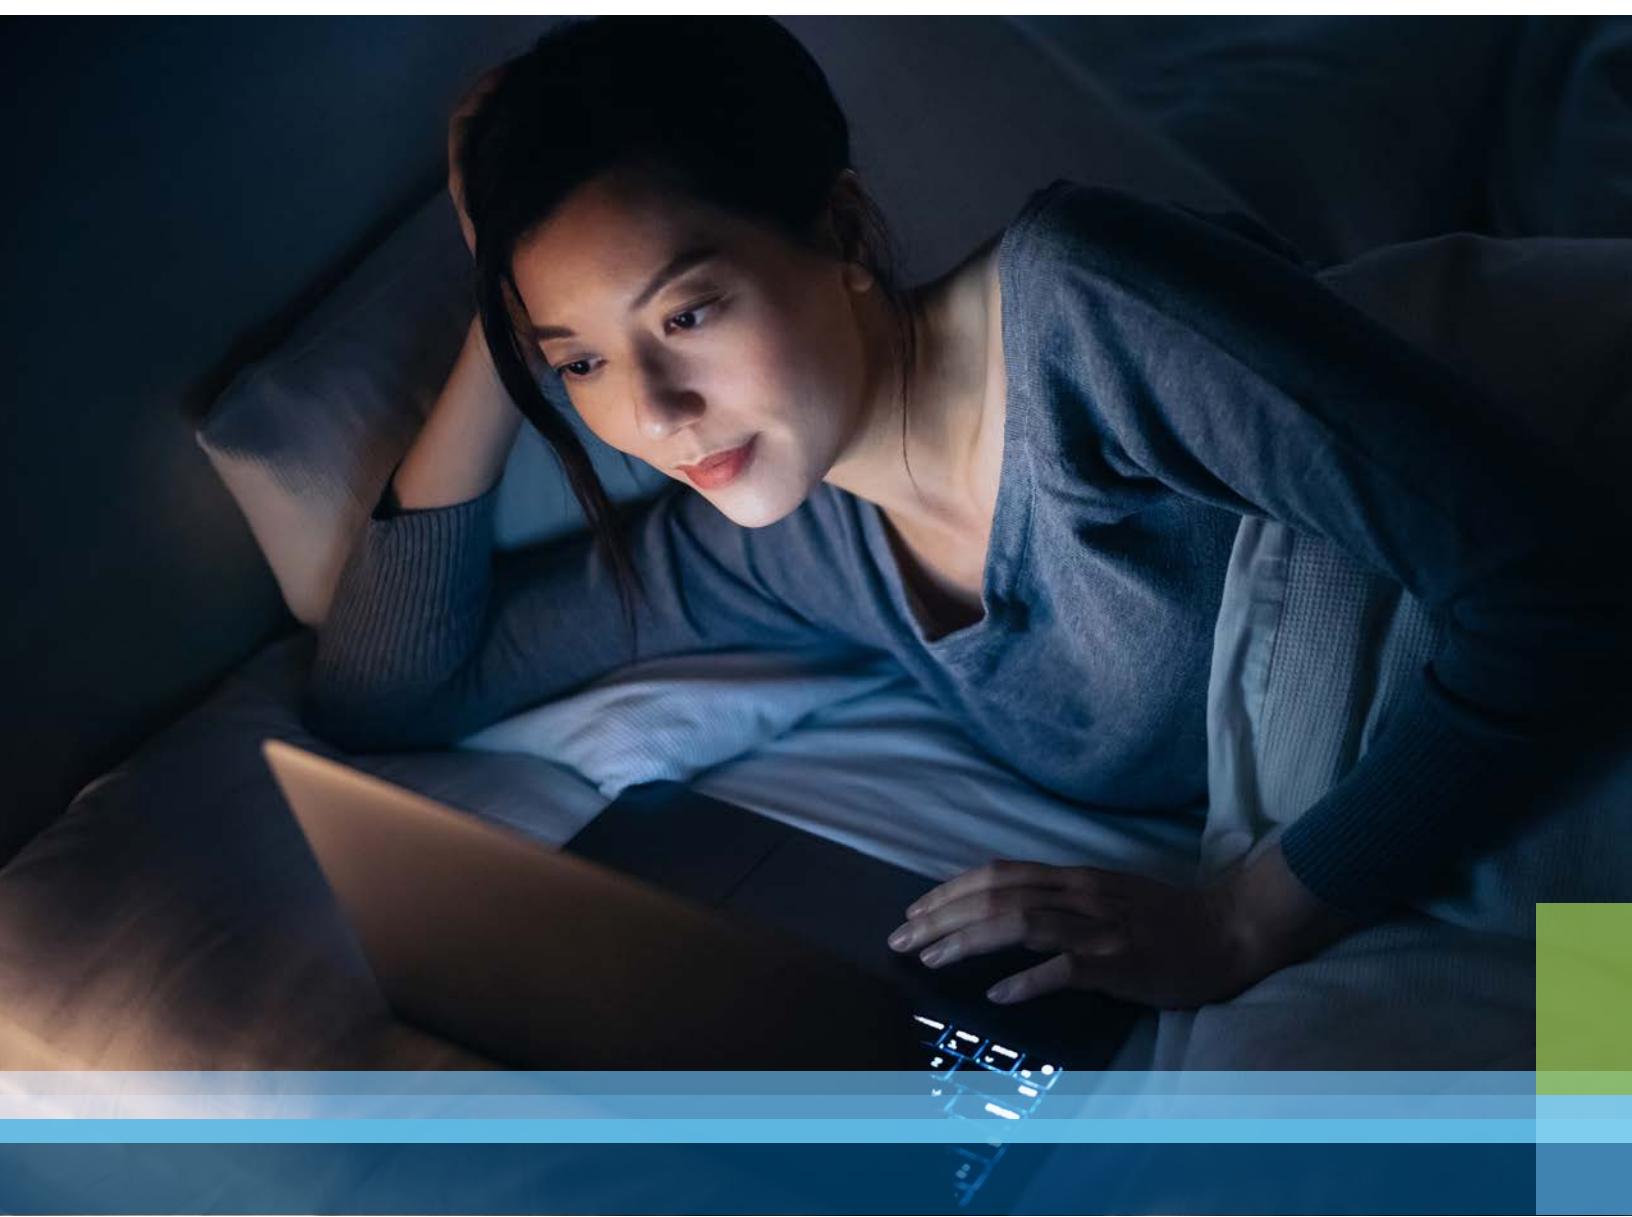

If you need emergency care, call 911 or seek help from any doctor or hospital immediately.

Note: Many health care providers offer telehealth appointments. Ask your preferred provider if they do and if it is appropriate for your condition(s).

Members are strongly advised to search and verify the network status of any health care provider or facility before receiving care to avoid unexpected charges. Network participation may change, and it is the member's responsibility to review whether a provider is in network at the time of service.

Examples given for each care scenario are not intended as an exhaustive list. You may seek care and be treated for other conditions or illnesses other than those cited as examples.

Information provided in this flier is not intended as medical advice, nor meant to be a substitute for the individual medical judgment of a doctor or other health care professional. Please check with your doctor for individualized advice on the information provided. Coverage may vary depending on your specific benefit plan and use of network providers. For questions, please call the number on your member ID card.

BlueResourceSM – Protecting Your Health – Screening for Breast Cancer

Learn How to Detect Breast Cancer Early

Nearly every woman worries about breast cancer – and for good reason. Every two minutes a woman in the United States is told she has breast cancer. Here's the good news: When breast cancer is found early, the five-year survival rate is 99 percent. Take these steps to help protect yourself.

Do a self-exam. Know how your breasts normally look and feel. Check them once a month and talk with your doctor if you notice any changes.

Visit your doctor each year. Ask for a breast exam as part of your annual checkup. Discuss other breast screenings you may need based on your age, risk factors and health history.

Make mammograms a must. Talk with your doctor at the age of 40 to see when and how often you should have breast X-rays. Follow recommended screening guidelines.

Focus on healthy living. Watch your weight and stay active. Eat fresh fruits and vegetables. Give up tobacco and limit the amount of alcohol you drink.

Get screened for breast cancer.

Health Care Fraud Prevention and Reporting

Health Insurance Fraud

Health care fraud, waste and abuse have a negative effect on the health care industry and our nation. Health care fraud costs billions of dollars each year. It impacts all of us in the long run.

Health care fraud leads to:

- Higher health care costs
- Limited health care resources
- Lower consumer confidence in our health care system

Examples of health care fraud include billing for:

- A service that was never performed
- A more expensive service, supply or piece of equipment other than what was really provided
- The same service twice

Blue Cross and Blue Shield of Texas has its own Special Investigations Department to fight fraud. The SID staff includes people from diverse backgrounds such as:

- Medical providers (doctors and nurses)
- Professional coders
- Insurance industry experts
- Law enforcement

SID also has a Data Intelligence Unit to partner with SID investigators to find and stop fraud, waste and abuse. When appropriate, SID refers fraud cases for criminal prosecution.

How do I report fraud?

If you suspect fraud, there are ways to report it.

- **Report by Phone: 1-800-543-0867**

The toll-free Fraud Hotline is available 24 hours a day, 7 days a week. You can remain anonymous or you can let us know if you want to be contacted.

- **Report Online: Complete a fraud report**

This online fraud reporting form can be completed and sent to the SID.

- **Report by U.S. Mail:** Blue Cross and Blue Shield of Texas

TEXAS ASSOCIATION *of* COUNTIES
HEALTH AND EMPLOYEE BENEFITS POOL

Make the Most of Your Pharmacy Benefits

Welcome to Navitus

Navitus Health Solutions is pleased to manage your pharmacy benefit. We have partnered with the Texas Association of Counties (TAC) to support your health and help you get the medications you need at the lowest cost. The following information will help you better understand and manage your pharmacy benefits.

Member Portal and App

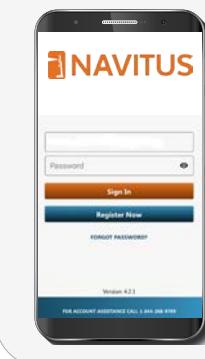

Our member portal helps you access your benefits with tools such as:

- **Pharmacy locator** — find in-network pharmacies near you
- **Cost compare** — find the best price for your drugs
- **Formulary** — check which drugs are covered by your plan

To visit the Navitus member portal, log in to your TAC account at mybenefits.county.org. You will be able to access the portal via a single sign-on link there.

You can also access your benefits, find a nearby pharmacy, view and manage your drugs and more on the Navitus app.

Check your benefit information anywhere and at anytime!

To download, go to the App Store or Google Play, or hover your phone's camera over this QR code*.

* The QR code may identify your IP/device information. However, your personal and health information is strictly confidential and will not be captured.

Easily Fill Your Prescriptions

Network Pharmacies

Your network includes all major chains and most independent pharmacies. You can find a local network pharmacy on the Navitus member portal via single sign-on from mybenefits.county.org.

Mail Order Pharmacy

Save time and money by having your prescriptions mailed directly to you through Costco Pharmacy. You will be able to get a 90-day supply of your maintenance drugs.

To start, simply register online at costco.com/pharmacy. You can also call Costco's customer service team at 800-607-6861. **You do not need to be a Costco member to use Costco pharmacies.**

Specialty Pharmacy

Specialty drugs are used to treat rare or complex conditions that require additional support. They can only be filled at specialty pharmacies. We partner with **Lumicera Health Services** to fill your specialty drugs. They will help you understand how to take or use your specialty drug and will work closely with your health care provider to provide personalized support and refill reminders.

Lower Your Drug Costs

These strategies can help you save on your prescription drugs:

1. Check Prices Online

The Navitus member portal and mobile app enable you to check drug prices before you visit the pharmacy. Visit the Navitus member portal via single sign-on from mybenefits.county.org or download the Navitus app to get started.

2. Consider a Generic Drug

Did you know that generic drugs are just as effective as brand-name drugs, are legally required to have the same active ingredient, and go through the same U.S. Food and Drug Administration (FDA) testing? They can also be much more affordable. If you are taking a brand drug, ask your provider if a generic might be appropriate.

3. Take Advantage of 90-Day Refills

If you are taking a maintenance drug, ask your provider if it can be filled every 90 days instead of every 30 days. You will take fewer trips to the pharmacy and can often save money. Typically, 90-day refills can be filled either at your retail pharmacy or by mail order.

Frequently Asked Questions

How do I fill a prescription when I travel?

If traveling for less than one month

You can fill an additional one-month supply of your drug at a network pharmacy. You can also ask your pharmacy to mail a one-month supply to you at the address where you will be staying if it is in the United States.

If traveling for more than one month inside the United States

Ask your pharmacist to transfer your prescription to a network pharmacy in the area you are traveling. Alternatively, your provider may be able to write an additional prescription for you to fill at a network pharmacy during your trip.

If traveling for more than one month outside the United States

Please contact Customer Care at 866-333-2757.

What is a formulary?

Your formulary is a list of drugs covered by your plan. It tells you whether a drug is generic or brand name, what cost tier it falls under and if there are coverage requirements or limits.

What are tiers?

Tiers are levels of coverage in your formulary. They are based on drug type and usage.

Tier 1	The lowest-cost drugs — most generic drugs. Also includes some low-cost, brand-name drugs.
Tier 2	Medium-cost drugs — most brand-name drugs. Also includes some high-cost, generic drugs.
Tier 3	Higher-cost drugs — most brand-name drugs and almost all specialty drugs.

Who decides which drugs are covered?

The Navitus Pharmacy and Therapeutics committee is made up of independent pharmacists and physicians from multiple specialties, none of whom are employed by Navitus. They meet regularly to review new and updated drugs for addition to the formulary. TAC works with a nationally recognized independent pharmacy consulting firm to evaluate Navitus' formulary change recommendations and to determine tier placement for all covered drugs.

What does it mean if my drug needs prior authorization, step therapy or quantity limits?

Prior authorization

Prior authorization means that certain criteria must be checked to ensure that a drug is appropriate and cost-effective before it is covered. Drugs that require prior authorization are marked “PA” on the formulary.

If your drug requires prior authorization, your provider can call 866-333-2757 to request approval or to find an alternative. We review requests within two business days.

Step therapy

Step therapy helps manage high-cost drugs. Drugs that need step therapy are marked “ST” on the formulary. With step therapy, you may be asked to try a safe and cost-effective alternative before the original drug is covered.

When filling a drug with step therapy, your pharmacist will be asked to call your provider about the alternative drug. Most members find that the lower-cost drug works well for them. You may also discuss the alternative with your provider.

Quantity limits

Quantity limits follow FDA guidelines for the amount of a drug you can receive within a certain time frame. They exist for your safety. Drugs with quantity limits are marked “QL” in the formulary. If you have a drug with a quantity limit, your provider may need to write a prescription for a smaller quantity or a shorter days’ supply.

Questions?

Most information can be found in the member portal or app. If you have questions, or can't find what you're looking for, you can also call our Customer Care team at 866-333-2757. We are available 24 hours a day, 7 days a week.

See Your Stats in a Flash

Everything you want to see quickly is on your dashboard. The dashboard shows all of your Well onTarget programs. You can see where you are today compared with where you were when you started. You can also read the latest health news, check your activity progress and more.

Take a Snapshot of Your Health

The HA asks you questions about your health and habits.¹ You then get a Personal Wellness Report. This report suggests ways to make positive lifestyle changes. Your report can also help you decide which Well onTarget program to start first to get the most benefit. You can even print a Provider Report to share with your doctor.

Health Tools and Trackers

Knowing what you eat and how much you work out can help you reach your goals. But keeping track of all you do can be time-consuming. To make it easy, the portal has trackers that let you record how much sleep you get, your stress levels, your blood pressure readings and your cholesterol levels.

The portal also offers a symptom checker. When you don't feel well, this tool can help you decide if you should see a doctor.

Self-Management Programs

These programs consist of:

1. Interactive programs with learning activities and content that focus on behavioral changes to reinforce healthier habits.
2. Educational programs that inform about symptoms, treatment options and lifestyle changes.

These two learning methods allow you to study on your own time and may help you get to the next level of wellness. Topics include nutrition, weight management, physical activity, stress management, tobacco cessation and more.

Fitness Tracking

Earn Blue Points for tracking your fitness activity using popular fitness devices and mobile apps.

Premium Assistance Under Medicaid and the Children's Health Insurance Program (CHIP)

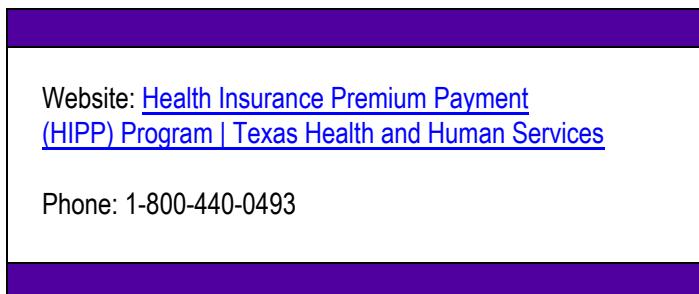

If you or your children are eligible for Medicaid or CHIP and you're eligible for health coverage from your employer, your state may have a premium assistance program that can help pay for coverage, using funds from their Medicaid or CHIP programs. If you or your children aren't eligible for Medicaid or CHIP, you won't be eligible for these premium assistance programs but you may be able to buy individual insurance coverage through the Health Insurance Marketplace. For more information, visit www.healthcare.gov.

If you or your dependents are already enrolled in Medicaid or CHIP, contact your State Medicaid or CHIP office to find out if premium assistance is available.

If you or your dependents are NOT currently enrolled in Medicaid or CHIP, and you think you or any of your dependents might be eligible for either of these programs, contact your State Medicaid or CHIP office or dial **1-877-KIDS NOW** or www.insurekidsnow.gov to find out how to apply. If you qualify, ask your state if it has a program that might help you pay the premiums for an employer-sponsored plan.

If you or your dependents are eligible for premium assistance under Medicaid or CHIP, as well as eligible under your employer plan, your employer must allow you to enroll in your employer plan if you aren't already enrolled. This is called a "special enrollment" opportunity, and **you must request coverage within 60 days of being determined eligible for premium assistance**. If you have questions about enrolling in your employer plan, contact the Department of Labor at www.askebsa.dol.gov or call **1-866-444-EBSA (3272)**.

You may be eligible for assistance paying your employer health plan premiums. In Texas, contact information regarding eligibility is listed below.

Important Notices

Initial Notice About Special Enrollment Rights in Your Group Health Plan

A federal law called Health Insurance Portability and Accountability Act (HIPAA) requires that we notify you about very important provisions in the plan. You have the right to enroll in the plan under its “special enrollment provision” without being considered a late enrollee if you acquire a new dependent or if you decline coverage under this plan for yourself or an eligible dependent while other coverage is in effect and later lose that other coverage for certain qualifying reasons. Section I of this notice may not apply to certain self-insured, non-federal governmental plans. Contact your employer or plan administrator for more information.

A. SPECIAL ENROLLMENT PROVISIONS

Loss of Other Coverage (Excluding Medicaid or a State Children’s Health Insurance Program) If you are declining enrollment for yourself or your eligible dependents (including your spouse) because of other health insurance or group health plan coverage, you may be able to enroll yourself and your dependents in this plan if you or your dependents lose eligibility for that other coverage (or if you move out of an HMO service area, or the employer stops contributing toward your or your dependents’ other coverage). However, you must request enrollment within 31 days after your or your dependents’ other coverage ends (or move out of the prior plan’s HMO service area, or after the employer stops contributing toward the other coverage).

Loss of Coverage For Medicaid or a State Children’s Health Insurance Program

If you decline enrollment for yourself or for an eligible dependent (including your spouse) while Medicaid coverage or coverage under a state children’s health insurance program is in effect, you may be able to enroll yourself and your dependents in this plan if you or your dependents lose eligibility for that other coverage. However, you must request enrollment within 60 days after your or your dependents’ coverage ends under Medicaid or a state children’s health insurance program.

New Dependent by Marriage, Birth, Adoption, or Placement for Adoption

If you have a new dependent as a result of marriage, birth, adoption, or placement for adoption, you may be able to enroll yourself and your dependents in this plan. However, you must request enrollment within 31 days after the marriage, birth, adoption, or placement for adoption.

Eligibility for State Premium Assistance for Enrollees of Medicaid or a State Children’s Health Insurance Program

If you or your dependents (including your spouse) become eligible for a state premium assistance subsidy from Medicaid or through a state children’s health insurance program with respect to coverage under this plan, you may be able to enroll yourself and your dependents in this plan. However, you must request enrollment within 60 days after your or your dependents’ determination of eligibility for such assistance.

To request special enrollment or obtain more information, call Customer Service at the phone number on the back of your Blue Cross and Blue Shield ID card.

II. Additional Notices

Other federal laws require we notify you of additional provisions of your plan.

The health care professional, however, may be required to comply with certain procedures, including obtaining prior authorization for certain services, following a pre-approved treatment plan, or procedures for making referrals.
